# About Us

*Nexlore is an educational enrichment company that offers after school, in-school and summer program services in over 500 schools and education centers nationwide.*

## WHY

Nexlore believes in the **Joy of Learning** and is inspired by a few basic principles:

When you learn what you love, you will love to learn.

When you are motivated to learn, learning becomes a goal, rather than a means. This sparks a purposeful, life-long journey of discovery and passion.

Enrichment programs are fundamental to the growth, development and success of our future leaders.

## HOW

Nexlore's mission is to foster the **Joy of Learning** through enrichment opportunities so that each child may discover and explore a passion that drives him or her to excel.

## WHAT

Nexlore is a "one-stop shop" for enrichment services and in-house field trips. We offer the most diverse selection of children's programs that can be applied in after school, in-school and summer settings.

## Our Programs

Nexlore offers a diverse selection of programs designed to inspire and empower students. Our programs are cutting-edge, unique and fun!

# NEXPL<sup>ORE</sup> Games

Nexlore Games is an innovative program that uses an internationally-acclaimed selection of strategy and mind games to enhance 21st century life skills and to teach students *how to think, rather than what to think*. Nexlore Games is the bridge that connects the world of games to the real world. During the course, students reflect and learn meta-cognitive models, which are then applied to all walks of life and scholastic achievements.

The Nexlore Games curriculum is broken down into 10 courses designed to develop a different domain of learning. Each course can be taught over 10-14 sessions. All courses are inter-disciplinary with elements that cross over between domains and apply to real life. The curriculum is connected to Common Core and STEM standards.

## Nexlore Games Methodology

### PLAY

In the first stage, students learn one of our carefully-selected strategy games. After a related introductory activity, students will learn the aims and rules of a new game. They will engage in authentic game play in small groups.

### LEARN

Students are introduced to metacognitive models, game strategies and underlying thinking concepts to develop their awareness about thinking processes. This reflective and investigatory phase encourages students to analyze their gaming experience and refine it.

### APPLY

Students will be guided to make connections to the real world. The thinking concepts learned in the game are applied to real life scenarios in which students can make a transference from the game setting to their real cognitive, social, emotional and academic experiences.

# NEXPL<sup>ORE</sup>

## Science

Nexplore Science is a program built upon inquiry, experimentation and play! Students will dive deep into various scientific concepts such as electricity, inventions, sound, energy, physics, light, nature, earth sciences and more! Each class teaches fundamental scientific ideas to children through hands-on play and activities.

**After School:** Each student will receive their very own Science Wiz™ kit to explore throughout the course. Students will experiment, investigate and build understanding from dynamic weekly activities.

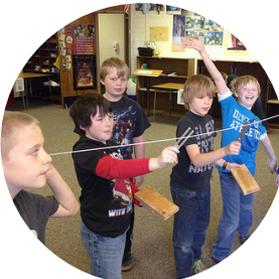

**In-house Field Trips:** Nexplore makes science come alive with Nature Watch's exclusive activity kits! Each activity is centered around a hands-on project designed to engage, enlighten and enliven the learning process. To further promote discovery, most of the kits include a craft so each of the students can "make and take" their project home. Nature Watch Activity Kits are fully aligned to NGSS, advance 21st century science education and are mapped for STEM extensions.

ScienceWiz™ is a trademark of Norman & Globus, Inc., which does not sponsor, authorize or endorse these programs. Nature Watch™ does not sponsor, authorize or endorse these programs. Nexplore, LLC is not affiliated with Norman & Globus, Inc. or Nature Watch™.

### After School Themes

- Charge
- Chemistry
- Chemistry + DNA
- Electricity
- Energy
- Inventions
- Light
- Magnetism
- Physics
- Rocks
- Sound

### In-School Themes

- Animals
- Earth & Space
- Earth Systems
- Ecosystems
- Nature
- Plants
- Weather & Climate

# NEXPLORE

## Finance

Nexplore Finance takes a hands-on and fun approach to understanding money in the real world. Interactive and age-appropriate coursework empowers PreK-8th grade students to take positive financial action in their lives, thus, improving emotional wellbeing and overall health. Lessons include games, projects and activities that explore aspects of financial psychology, budgeting, saving, investing, income, career business, credit, debt, loans, risk management and insurance. Nexplore uses the NFEC curriculum because it balances practical and personal finance applications with core educational standards. The lessons are engaging, making financial literacy enjoyable and applicable for students of all ages!

### Learning Topics

- Financial Psychology
- Accounts, Savings & Budgets
- Credit, Debts & Loans
- Income, Careers, Business & Entrepreneurship
- Risk Management & Insurance

### Grade Levels

- Prekindergarten
- Grades K-2
- Grades 3-5
- Grades 6-8

**NEXPLORE**  
the joy of learning

Zumba® Kids is a fun, high-energy fitness class packed with specially choreographed routines and games for children using the latest music and rhythms like hip-hop, reggaeton, cumbia and salsa. Zumba® Kids classes inspire kids to express themselves through movement and play while effectively improving overall health and well-being. Educators love Zumba® Kids because of the effects it has on children: increasing focus, building self-confidence, enhancing creativity and coordination, boosting metabolism and implementing teamwork skills. Each class is headed by a trained and licensed Zumba® Kids fitness instructor. Classes not only include music and dance, but arts, crafts and cultural education, as well. It is a fun way for kids to keep healthy and motivated!

## Capoeira

Capoeira is an Afro-Brazilian martial art that combines elements of combat, acrobatics, music, dance and rituals in a very elegant and dynamic way. During a Capoeira session, students will learn martial arts techniques, discover acrobatics, play musical instruments and explore cultures. Capoeira improves coordination, builds flexibility, enhances concentration, boosts self-confidence and promotes an active lifestyle. This unique technique and educational approach to fitness makes Capoeira a martial art like no other!

- Strength Training
- Community Building
- Roda Circle

# NEXPLORE

## Art

Nexplore Art is an interactive art program that explores fundamental art concepts such as color mixing, drawing, shading, texture and more. Throughout the course, students will make fun, creative and age-appropriate projects using different media such as acrylic paint, water color, charcoal and oil pastels. Hands-on activities allow students to develop a joy in learning art, enhance their creativity and build upon their own strengths and interests.
