About Us

Nexplore is an educational enrichment company that offers after school, in-school and summer program services in over 500 schools and education centers nationwide.

WHY?

Nexplore believes in the Joy of Learning and is inspired by a few basic principles:

When you learn what you love, you will love to learn.

When you are motivated to learn, learning becomes a goal, rather than a means. This sparks a purposeful, life-long journey of discovery and passion.

Enrichment programs are fundamental to the growth, development and success of our future leaders.

HOW?

Nexplore's mission is to foster the **Joy of Learning** through enrichment opportunities so that each child may discover and explore a passion that drives him or her to excel.

WHAT?

Nexplore is a "one-stop shop" for enrichment services and in-house field trips. We offer the most diverse selection of children's programs that can be applied in after school, in-school and summer settings.

Our Programs

Nexplore offers a diverse selection of programs designed to inspire and empower students. Our programs are cutting-edge, unique and fun!

NEXPLORE

Games

Nexplore Games is an innovative program that uses an internationally-acclaimed selection of strategy and mind games to enhance 21st century life skills and to teach students *how to think, rather than what to think*. Nexplore Games is the bridge that connects the world of games to the real world. During the course, students reflect and learn meta-cognitive models, which are then applied to all walks of life and scholastic achievements.

The Nexplore Games curriculum is broken down into 10 courses designed to develop a different domain of learning. Each course can be taught over 10-14 sessions. All courses are inter-disciplinary with elements that cross over between domains and apply to real life. The curriculum is connected to Common Core and STEAM standards.

Nexplore Games Methodology

PLAY

In the first stage, students learn one of our carefully-selected strategy games. After a related introductory activity, students will learn the aims and rules of a new game. They will engage in authentic game play in small groups.

LEARN

Students are introduced to metacognitive models, game strategies and underlying thinking concepts to develop their awareness about thinking processes. This reflective and investigatory phase encourages students to analyze their gaming experience and refine it.

APPLY

Students will be guided to make connections to the real world. The thinking concepts learned in the game are applied to real life scenarios in which students can make a transference from the game setting to their real-world experiences.

NEXPL^{ORE} Science

Nexplore Science programs are built upon inquiry, experimentation, and play! We currently offer two unique programs:

Science Wiz: Each Course, students will dive deep into one of the following scientific concepts: electricity, inventions, sound, energy, physics, light, DNA, magnetism and more! Student will receive their very own Science-Wiz™ kit to explore fundamental ideas through hands-on activities and experiments. Plus, they can bring many of their experiments home to share with family and friends!

Nature Watch: Environmental science comes alive with Nature Watch™ activity kits! Each activity is centered around a hands-on project designed to engage, enlighten, and enliven the learning process. Each course covers one important topic, like animals, ecosystems, climate, and more. To further promote discovery, most kits include a craft so each participant can “make and take” their project home. Nature Watch’s activity kits are fully aligned to NGSS, advance 21st century science education and are mapped for STEAM extensions.

ScienceWiz Themes

- Charge
- Chemistry
- Chemistry +
- DNA
- Electricity
- Energy
- Inventions
- Light
- Magnetism
- Physics
- Rocks
- Sound

Nature Watch Themes

- Animals
- Earth & Space
- Earth Systems
- Ecosystems
- Nature
- Plants
- Weather & Climate

NEXPL^{ORE} Robotics

Nexplore Robotics is a STEAM program designed to inspire kids to pursue futures in science & technology. Students interact with fun Maker Kits that enhance mechanical, art, and engineering skills, while encouraging them to act as inventors in their own right. Participants design their own remote-controlled hydraulic arms, learn to harness the power of pressurized carbon dioxide with Yeast Mobiles, build electric & solar powered race cars, and experiment with gears & pulleys in our Tinker Sets. Plus, students can keep their inventions and proudly share their projects with family and friends. Nexpore Robotics is fully aligned with Next Generation Science Standards, and reminds kids to always explore, experiment, and create!

Grade K-2 Activities

- Sail Car
- Grab Lab
- Micro Hydroponics
- Pump-It Challenge
- Sled Race/Ramp Roll
- Earthquake Towers
- Straw Rockets

Grade 3-6 Activities

- Rubber Band Racer
- Hydraulic Claw
- Wiggle Bots
- Projectile Launchers
- Hazmat Challenge

NEXPL^{ORE}

Finance

Nexlore Finance takes a hands-on and fun approach to understanding money in the real world. Interactive and age-appropriate coursework empowers PreK - 8th grade students to take positive financial action in their lives, thus, improving emotional wellbeing and overall health. Lessons include games, projects and activities that explore aspects of financial psychology, budgeting, saving, investing, income, career business, credit, debt, loans, risk management and insurance. Nexlore uses the NFEC curriculum because it balances practical and personal finance applications with core educational standards. The lessons are engaging, making financial literacy enjoyable and applicable for students of all ages!

Topics

- Financial Psychology
- Accounts, Savings & Budgets
- Credit, Debts & Loans
- Income, Careers, Business & Entrepreneurship
- Risk Management & Insurance

Grade Levels

- Prekindergarten
- Grades K-2
- Grades 3-5
- Grades 6-8
- Adults

NEXPLORE
the joy of learning

Zumba® Kids is a fun, high-energy fitness class packed with specially choreographed routines and games for children using the latest music and rhythms like hip-hop, reggaeton, cumbia and salsa. Zumba® Kids classes inspire kids to express themselves through movement and play while effectively improving overall health and well-being. Educators love Zumba® Kids because of the effects it has on children: increasing focus, building self-confidence, enhancing creativity and coordination, boosting metabolism and implementing teamwork skills. Each class is headed by a trained and licensed Zumba® Kids fitness instructor. Classes not only include music and dance, but arts, crafts and cultural education, as well. It is a fun way for kids to keep healthy and motivated!

Benefits

- Balance
- Confidence
- Coordination
- Creativity
- Cultural Education
- Leadership
- Memory
- Pride
- Respect
- Teamwork

Activities

- Stretching
- Fitness Drills
- Learning 8 Counts
- Cultural Stories
- Dance Routines
- Movement Games
- Teamwork Activities

NEXPL^{ORE}

Capoeira

Capoeira is an Afro-Brazilian martial art that combines elements of combat, acrobatics, music, dance and rituals in an elegant and dynamic movement artform. During a Capoeira session, students will learn martial arts techniques, discover acrobatics, play musical instruments and explore other cultures. Capoeira improves coordination, builds flexibility, enhances concentration, boosts self-confidence and promotes an active lifestyle. This unique technique and educational approach to fitness makes Capoeira a martial art like no other!

Benefits

- Agility
- Concentration
- Confidence
- Coordination
- Cultural Education
- Discipline
- Flexibility
- Music Appreciation
- Respect
- Responsibility

Activities

- Stretching
- Ginga (basic swing)
- Combination Moves
- Cultural Stories
- Strength Training
- Community Building
- Roda Circle

NEXPLORE

Art

Nexplore Art offers interactive projects that explore fundamental concepts such as color mixing, drawing, shading, texture and more. Students make fun, creative, and age-appropriate projects using different media such as acrylic paint, water color, charcoal and oil pastels. Hands-on activities allow students to develop a joy in learning art, enhance their creativity, and build on their own strengths and interests. We offer two Nexplore Art programs:

Art Around the World

Students get a glimpse into other cultures with projects inspired by art from each continent. Each class begins with a brief discussion of the project's country of origin before students dive in to create their own unique take!

Famous Artists

Participants gain a broad understanding of art history by creating projects in the style of influential artists. By trying out different techniques and approaches, students build an understanding of art's role in culture, while taking the first steps to discover their own unique artistic voice.

Art Around the World Activities

- Color Blending
- Australian Boomerang
- Sydney Opera House
- African Tribal Masks
- Savanna Sunset
- Cherry Blossoms
- Koi Watercolor
- Russian Faberge Eggs
- St. Basil's Cathedral

Famous Artists Activities

- Color tint and shade
- Paul Klee New Harmony
- Paul Klee Castle and Sun
- Maud Lewis Black Cat
- Maud Lewis Light House
- Pablo Picasso Flower Bouquet
- Pablo Picasso Face
