

# NEXPL<sup>ORE</sup>

the joy of learning

Looking to bring some excitement to the traditional school day while avoiding the excess costs and liability of traveling for field trips? Nexptore's in-house field trips provide enriching, engaging, and fun activities in the comfort

of your own school! These on-site trips are structured as exciting, hands-on 45-60 minute workshops that run back-to-back. Our certified instructor can simply be stationed in one room, and classes rotate in every hour.

Please choose which of our programs you would like for your students, and visit [www.nexptoreusa.com/bookings](http://www.nexptoreusa.com/bookings) to schedule your field trip! Plus, feel free to review our Science, Robotics, and Art pages to choose from dozens of individual activities your students can make and take home!

## On-Site Field Trips! PreK-12

### Games

Nexptore Games uses an internationally-acclaimed selection of strategy and mind games to enhance 21st century life skills. The program teaches students how to think, rather than what to think through a unique method: Play – Reflect – Apply. During the course, students learn meta-cognitive models, which are then applied to all areas of life and scholastic achievement.

\$8  
per student

### Science

Nexptore offers two unique science programs built upon inquiry, experimentation, and play! In our **Science Wiz** program, students receive their very own ScienceWiz™ kit, which they will use to dive deep into one core scientific concept like DNA, magnetism, electricity, and more. In our **Nature Watch** program, environmental science comes alive with Nature Watch™ activity kits that cover one important topic like animals, ecosystems, climate, and more. Both programs include hands-on activities that students can take home!

\$10  
per student

### Robotics

Nexptore Robotics is a STEAM program designed to inspire kids to explore, experiment, and create! Students interact with fun Maker Kits that enhance mechanical, art, and engineering skills, while encouraging them to act as inventors in their own right. Plus, students can keep their inventions and proudly share their projects with family and friends.

\$10  
per student

### Finance

Nexptore Finance takes a hands-on and fun approach to understanding money in the real world. Interactive and age-appropriate coursework empowers PreK - 8th grade students to take positive financial action in their lives. Lessons include games, projects and activities that explore aspects of financial psychology, budgeting, saving, investing, income, career business, credit, debt, loans, risk management, and insurance.

\$8  
per student

### Art

Nexptore offers two engaging art programs that explore fundamental artistic concepts. In our **Art Around the World** program, students get a glimpse into other cultures with projects inspired by art from each continent. In our **Famous Artists** program, participants gain a broad understanding of art history by creating projects in the style of influential artists. By trying out different techniques and approaches, students build an understanding of art's role in culture, while taking the first steps toward discovering their own unique artistic voice.

\$9  
per student

### Zumba

Zumba® Kids is a fun, high-energy fitness class packed with specially choreographed routines and games for children using the latest music and rhythms like hip-hop, reggaeton, cumbia and salsa. Zumba® Kids classes inspire kids to express themselves through movement and play while improving overall health and well-being.

\$8  
per student

### Capoeira

Capoeira is an Afro-Brazilian martial art that combines elements of combat, acrobatics, music, dance, and rituals in an elegant and dynamic movement artform. Capoeira improves coordination, builds flexibility, enhances concentration, boosts self-confidence, and promotes an active lifestyle.
